President's Message

Work is keeping me busy and I haven't been out detecting very much so far this month. I hope all of you have found more time to have fun than I have.

Our June 23rd meeting will be taking us back in time to the age-old past time of rock collecting. The presentation by Jim Record and Wallace Scott will focus on rock collecting, lapidary with rocks, and wire tying. We all probably have found interesting rocks while we have been out metal detecting. My wife and grandkids like finding agate and rocks that would look good if they were polished. If you have a rock that you have found that you would like to have identified, bring it to the meeting and maybe you will be able to find out what it is.

We can still use help on Friday and Saturday for the coin show. Even if you only have a couple of hours to spend, your help would be greatly appreciated. You'll be sure to be able to enjoy the show, if you are already there volunteering! Thank you to everyone who has volunteered and signed up to help and cover the shifts. We hope to have a great time there this weekend. I will see you there Friday evening and Saturday.

I am looking forward to this month's meeting and to seeing all of you there, too.

Kevin Barnes

Guest Speaker: Lisa Boren Lost Rhoades Mines

Thank you Lisa for the interesting presentation and stories.

The Rhoades mines was shown by Ute Indian to one of the Mormon settlers, that promised to never reveal the location. The gold from the mine was used on the statue of Moroni on the Salt Lake Temple.

The mines are thought to be originally created the Aztecs and later the Spanish. One of the Spanish gold veins was estimated to be worth 50 million.

The story also includes the Sundance Kid, Elza Lay and Matt Warner in a robbery.

Map near the Chicken Creek Massacre

Many of these maps created to mark the location of the mines have been altered to prevent other people from finding the actual mine locations.
